

*Memorandum*

TO : AD/OEL  
cc : DAD/IO  
FROM : DAD/S&D

DATE: 10 November 1964

SUBJECT:

I think we ought to have a presentation as to the impact of the data obtained from the [ ] shoot down on our knowledge of SA-2 guidance signals. Information has been obtained piecemeal from various OEL personnel as well as from cables and a consolidated OEL viewpoint should be developed. Based on our analysis of the situation, we might like to review the development of the FAN SONG guidance intercept fly away kit. I understand from [ ] for example, [ ]
